Skills

As a dedicated psychotherapist with a passion for problem-solving and creative expression, I am making a dynamic shift into front-end development.

My experience in guiding individuals through complex emotional landscapes has honed my analytical thinking and communication skills.

Now equipped with a solid foundation in HTML, CSS, and JavaScript, I bring a unique blend of empathy and technical acumen to create user-friendly and impactful web solutions. Eager to leverage my diverse background to contribute innovative perspectives to a collaborative development team.

Certificates:

Web development intensive – Coding Black females (November 2023)

Intro to Python - Code First Girls (June 2023)

Intro to Web Development – Code First Girls (April 2023)

Experience

NHS - Locum Psychotherapist

March 2021 - PRESENT, West Sussex

Designing evidence-based high-intensity CBT plans tailored to client needs, collaborating in multidisciplinary teams for referral assessments, and maintaining concise, professional clinical notes.

Meriden Wellbeing - Therapy Group Facilitator

December 2021 - May 2022, London, Barnet

Support managers and clinical lead in creating APPs and a website that supports patients in personalising their care needs.

Liaising with patients on their experiences and compiling research data to evidence how treatment methods assisted recovery outcomes. Delivering treatment protocols that are in line with NICE guidelines via webinars.
